## **M2DYNAMICS ANNOUNCES AWARD OF DC ENTERPRISE SEARCH PLATFORM SOLUTION**

*Contract award integrates FAST enterprise search platform (“FAST ESP™”) across DC’s IT infrastructure to significantly enhance system functionality, interoperability and interconnectivity.*

JACKSON, MI --- April 19, 2005 --- Michigan-based m2Dynamics, LLC (“m2D”), an exclusive public sector Master Value Added Reseller of Fast Search and Transfer (“FAST™”) products and services, today announced the award of a contract from the District of Columbia’s Office of the Chief Technology Office (“DC OCTO”) to establish FAST ESP™ as the enterprise search standard for the District of Columbia.

“The award of this contract and the establishment of the award winning FAST DataSearch 360™ as the enterprise search standard in the District of Columbia positions both m2Dynamics and FAST™ to provide significant benefit in the areas of Public Safety, and enhance DC OCTO and the Department of Homeland Security’s (“DHS”) current and projected initiatives, on a local, state, regional and national levels,” said James A. Jensen, m2D’s President. “We’re pleased to establish this relationship with DC OCTO, as they are widely recognized for instituting many commercial best practices in the development of IT capability addressing emergency responsiveness in the National Capital Region, and for their work with the DHS.”

“The combination of our Public Sector experience with the superior functionality and scalability of the FAST products across the entire enterprise, fortified by the work and vision of DC:OCTO’s various Division Managers under the direction of Deputy Director Jamey Harvey will provide immediate results within the DC’s IT infrastructure to provide enhanced service levels and secure accessibility for Administration, Public Safety, Justice (JUSTIS), and Planning throughout various Internet, Intranet and regional Public Sector interconnectivity and interoperability initiatives currently being pursued by DC OCTO,” added Bernard P. Tisserand, m2D’s Vice President for m2Dynamic’s Public Sector Practice.

### **About m2D**

m2Dynamics ([www.m2dynamics.com](http://www.m2dynamics.com)) is an exclusive Master Value Added Reseller of the products and services of FAST, targeting certain Public Safety applications of the Public Sector. Headquartered in Jackson, MI, M2d has offices in Dover, NH and Reston VA, and maintains significant integration teaming relationships with a variety of geographically based partners.

## **About FAST**

FAST creates the real-time search and filter technology solutions that are behind the scenes at the world's best known companies with the most demanding search problems. FAST's flexible and scalable integrated technology platform elevates the search capabilities of enterprise customers and connects people to the relevant information they seek regardless of medium. This drives revenues and reduces total cost of ownership by effectively leveraging IT infrastructure. FAST's powerful enterprise search technology solutions are used by more than 1,500 global customers and partners, including America Online (AOL), AT&T, Cardinal Health, CareerBuilder.com, Chordiant, CIGNA, CNET, Dell, Factiva, Fidelity Investments, Findexa, FirstGov.gov (GSA), IBM, Knight Ridder, LexisNexis, Overture, Rakuten, Reed Elsevier, Reuters, Sensis, Stellent, Tenet Healthcare, Thomas Industrial Networks, T-Online, US Army, Virgilio (Telecom Italia), Vodafone, and Wanadoo.

FAST is headquartered in Norway and is publicly traded under the ticker symbol 'FAST' on the Oslo Stock Exchange. The FAST Group operates globally with presence in Europe, the United States, Asia Pacific, Australia, South America, and the Middle East.
